EXPERIENCE

Saylani Mass IT Training Center   **Karachi, Pakistan**
Web and App Development Course   *2023 – 2024*

- Completed a one-year course, gaining proficiency in **React**, **Node.js**, and **MongoDB**.
- Developed full-stack apps, improving scalability and performance, reducing load times by **30%**.
- Collaborated in a team of **5+ developers**, delivering projects on time with **100% project completion**.
- Built a multi-store food delivery app with **Next.js** and **TypeScript**, improving delivery efficiency by **20%**.
- Integrated **Clerk Authentication**, reducing authentication time by **25%**.
- Leveraged **Firebase** for real-time data sync, improving speed by **40%**.
- Optimized SEO and responsiveness, increasing mobile traffic by **50%**.
- Styled UI with **Tailwind CSS**, boosting user engagement by **15%**.
- Utilized **TypeScript** and **Next.js**, reducing debugging time by **35%**.

PROJECTS

Next.js Multistore Food App 🌐 | Next.js, TypeScript, Clerk Authentication, Firebase, Tailwind CSS

- Developed a multi-store food delivery app using Next.js and TypeScript, focusing on scalability and performance optimization for various food outlets
- Integrated **Clerk Authentication** to handle secure user registration, login, and role-based access for customers, store owners, and administrators
- Leveraged **Firebase** for real-time data management and image storage, ensuring fast data synchronization across stores
- Optimized the application for SEO and responsiveness, providing a seamless user experience across devices
- Styled the UI with **Tailwind CSS** for a modern, responsive design that adapts smoothly to different screen sizes
- Utilized TypeScript and Next.js best practices to enhance maintainability and performance
